Letter to the Minister

The Honorable Mr. Larry R. Shaben Minister of Economic Development and Trade Edmonton, Alberta

Sir:

I have the honour to present to you, in accordance with the provisions of Section 9 of the Motion Picture Development Act, 1981, the fourth Annual Report of the Alberta Motion Picture Development Corporation (AMPDC) for the year ended March 31, 1986.

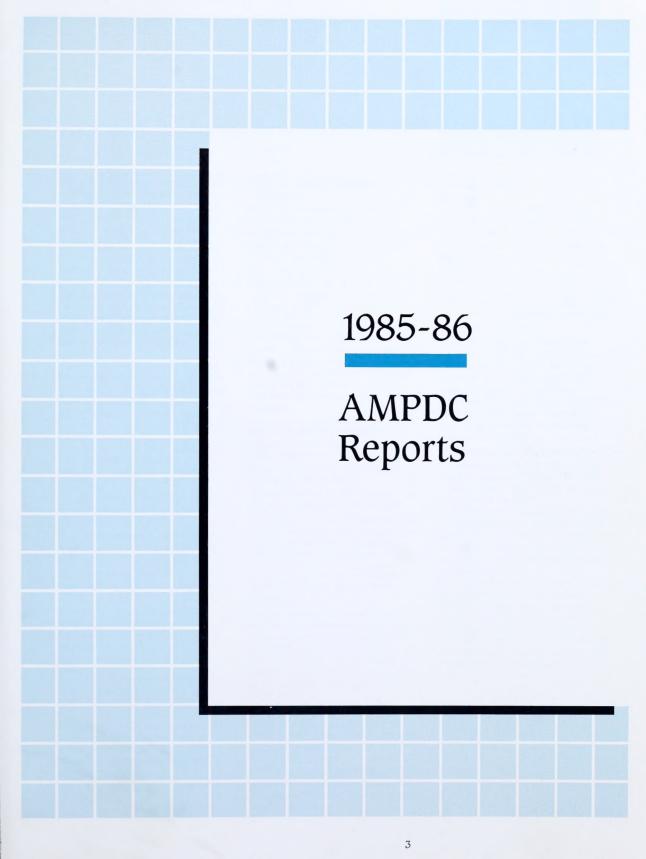

Yours truly,

Orville Kope Chairman of the Board

ALBERTA MOTION PICTURE DEVELOPMENT CORPORATION

Orville Kope, Chairman AMPDC Board of Directors

President's Report

Our previous Annual Reports dealt with each year's activities. In the 1985-86 AMPDC ANNUAL REPORT we assess our progress since 1982 in "developing the Alberta motion picture industry."

In 1985-86, the ALBERTA MOTION PICTURE DEVELOP-MENT CORPORATION reports that the Alberta industry is making steady progress with twelve completed AMPDC projects, growing producer marketing skills and a higher industry profile internationally.

Alberta has been a leader in the development of an indigenous film-and-video industry, and the Alberta motion picture industry has a strong tradition of quality and success in non-theatrical films and videos.

Alberta Industry History

Filming in Alberta started as early as 1910.

Canada's first provincial film development officer *was appointed* in Alberta in 1972.

The Alberta Motion Picture Industries Association—AMPIA was formed in 1973.

The world's first international television festival *was held in Banff in 1979*.

After a 1978 industry-generated report, Alberta opened the first provincial development Corporation ALBERTA MOTION PICTURE DEVELOPMENT CORPORATION—in 1982.

From its inception in 1982, the goal of the ALBERTA MOTION PICTURE DEVELOPMENT CORPORATION (AMPDC) has been to build on this solid foundation and to increase production in other areas—particularly theatrical movies and television programming.

1985-86 Alberta Industry Highlights

In 1985-86 Alberta became the second largest province in total indigenous independent English-language production, including features, television and non-theatrical programs.

Alberta is third in "outside" productions—that is, in volume of non-Albertan productions shooting in the province.

In Edmonton, Calgary and smaller centres, Alberta has an estimated 1,000 people—including about 40 producers or production companies, and three distributors—working in the film/video-and-broadcast industry.

1985-86 AMPDC Highlights

To March 1986 AMPDC approved 58 development loans for 50 projects—theatrical features, television programs & documentaries.

The first twelve AMPDC assisted projects were completed by 1986. In 1985, a protocol of agreement for the first inter-provincial co-production agreement was signed between Alberta (AMPDC) and Quebec (SGCQ).

AMPDC Future Goals and Activities

With a mandate to foster, promote and develop Alberta's independent film and television production, the ALBERTA MOTION PICTURE DEVELOPMENT CORPORATION—AMPDC—is proud of its contribution to the indigenous industry's growth from 1982-86.

AMPDC as "Bank"

The principle function of the Alberta Motion Picture Development Corporatioon will remain that of a lender to producers.

AMPDC expects more programs to be completed in the near future and an increasing number of loan repayments will follow.

Lorne W. MacPherson AMPDC President & C.E.O.

Project Development and Promotion

Late in 1985, AMPDC's ability to develop and promote—projects, producers and the Alberta industry —was enhanced by the addition of a Vice-President, Project Development and Promotion.

New AMPDC V.P., C.V. (Caryl) Brandt, is an award-winning Alberta film-and-video producer/director, a publicist, and a feature/commercials production manager.

AMPDC/Industry Assessment

During 1986-87, AMPDC will work formally with industry and government to review what areas of the Alberta industry remain underdeveloped and what future AMPDC activities could assist Alberta filmand-video producers in reaching their full potential.

Developing an "Investment Pool"

During the next few years, a key AMPDC objective will be the development of an "investment pool" for the Alberta industry.

AMPDC promotional activities will emphasize raising the awareness of the private investment community about the quality of the Alberta industry and the investment potential of film-and-video.

In 1982 the Government of Alberta established the Alberta Motion Picture Development Corporation recognizing that film-and-video is a commercially viable industry.

In 1986 the AMPDC concludes that the Alberta motion picture industry is maturing and has a strong future ahead.

Lulley.

Industry Year in Review

Television

Much of Alberta's independent production is geared to the television market, so national developments can have a significant impact on the provincial industry. The establishment of the AMPDC coincided with a growth in the national television market because of Canadian content requirements and the federal government's infusing investment capital into TV production through Telefilm Canada. The 1982-86 AMPDC figures reflect these TV-market-orientation influences.

Broadcast Report:

Throughout the year the Federal Task Force on Broadcasting has been conducting a long overdue comprehensive study of all aspects of the broadcast industry.

(Edmonton filmmaker and broadcaster Fil Fraser, a member of the Alberta Government Task Force which resulted in the formation of AMPDC, is a member of this Broadcast Commission.)

This report and the resulting Government action on policy will affect Alberta's independent TV producers.

Broadcast Development Fund:

For the industry across Canada it was a year in which the promising new era that began with the establishment of the Canadian Broadcast Development Fund in 1983 culminated in over \$300,000,000 in domestic independent production.

Alberta producers were able to significantly benefit from this massive amount of production financing and gain further access to the national financing facilities which have been almost the exclusive domain of Eastern producers.

Provincial Assistance Programs

Other provinces are following Alberta's 1982 lead in establishing AMPDC. Late in 1985 the Ontario Film Development Corporation (OFDC) was established, following the formation of Film Manitoba in 1984, and the Société Générale du Cinéma du Québec (SGCQ) in 1983. While all this additional support will help the Canadian industry, these recent broader-mandated and better-funded provincial organizations represent new disadvantages to Alberta producers in the market place, and additional competition to AMPDC with its relatively finite resources for developing projects.

Theatrical Features Feature Film Fund:

After extensive consulation with the industry, the **Roth-Raymond Task Force on Film**, commissioned by the Federal Minister of Communications, reported in December.

(Ken Chapman, a founding AMPDC Board member, was a member of the Task Force.)

While the Task Force recommendations were wide ranging, dealing with problems from production through to exhibition, the Government acted with dispatch on the major recommendation that financial support be increased to assist feature film production.

While its precise terms of reference were debated with the provincial governments on the cultural implications and with the industry on business implications, the Feature Film Fund's major thrust is to tie federal funding to Canadian distribution facilities in a manner ensuring the Canadian films will receive proper marketing in Canada.

Financial and other incentives are also to be made available to Canadian-owned distribition companies for the same purpose.

With the introduction of a **federal feature film fund**, Alberta projects will have more market options and theatrical features will no longer have to be produced and marketed as "television movies" first.

Theatrical Exhibition:

ODEON CINEPLEX, the Canadianowned theatre chain, further demonstrated our industry's maturation by acquiring a U.S. theatre chain, making ODEON CINEPLEX the largest in North America.

In turn, a major U.S. studio and distribution company acquired a minority position in ODEON CINE-PLEX making this chain a truly integrated international participant in film exploitation.

Expectations are that ODEON CINEPLEX will further assist Canadian independent productions to get onto Canadian and U.S. screens, thus alleviating a serious deterent to the success of the Canadian industry ...the lack of access to major markets dominated by foreign distributors and foreign-owned theatres.

Home Video

The international home video market is becoming a lucrative area. Approximately 50% of all revenues earned world wide from film distribution now comes from home video. Low-budget films, which the Alberta industry can produce, are more frequently being done specifically for this home video market.

Vice-President's Report

Project Development

AMPDC has operated as a "bank" since the Canmore office opened in 1982. Through the AMPDC loan fund, Alberta producers have had the financial resources to 'develop' projects—completing scripts, finding financiers and pre-selling projects.

The first major AMPDC project was the feature film DRAW, starring Kirk Douglas and James Coburn. An AMPDC start-up loan of \$168,000 resulted in the \$4 million picture being filmed at Fort Edmonton in 1983.

Project Status

To March 31, 1986 AMPDC received 200 applications, considered 111 and approved loans for 50 projects:

17 theatrical features;

- 11 TV movies (including featurelength pilots, and one-hour TV dramas);
- 17 TV pilots and series;
- 4 documentaries.

The total estimated production budgets for these 50 projects is just under \$109 million.

By March 1986, the first 12 AMPDC projects were completed with AMPDC loans totalling \$1.3 million. The production budgets totalled \$17 million—with an estimated \$10.4 million spent directly in Alberta.

This first dozen are mostly television oriented, mainly because TV programs can often be produced faster than theatrical features. Secondly, both the Canadian content regulations and the (Telefilm) Broadcast Fund have encouraged projects to be for "television first". With the new Feature Film Fund, the "categories" of completed projects should be more balanced.

Market Development

Growth in the provincial industry depends on taking advantage of new markets as well as capturing more of existing ones. The historical foundation of the Alberta industry is documentary, educational, training and industrial programs. In 1985-86 the AMPDC commissioned a report on the potential of this non-theatrical market for the Alberta industry.

George Christoff and Albert Karvonen, Alberta producer-distributors, prepared the report based on the Western Canada Film & Video Showcase (WCFVS)—held annually in Banff for education, library and health professionals.

AMPDC/WCFVS Report on Non-Theatrical Market Potential for Alberta

Based on budgets of N.W.T. & Western Canadian organizations, the AMPDC Report estimated the existing market for non-theatrical product to be \$2.5 million.

Less than 5% of this amount is currently used to buy Albertan product. The U.S. share is 58%; the public share 23% (Access, TVO, NFB & CBC); Eastern Canada 9% and other Commonwealth countries 5%.

The report suggested ways to increase the Alberta share of this market, including rebates to users of Alberta product, promotion and a program inventory.

AMPDC works closely with Economic Development's Director of Film Industry Development, **BILL MARSDEN**, who is the provincial film commissioner and promotes the use of Alberta locations and crews by out-of-province producers.

As well, Economic Development's Location Agents—FRANK POOLE in London, England and JERRY SMITH in Los Angeles—are used extensively by both AMPDC and Alberta producers to help identify markets, financiers and potential international co-producers.

Promotion

Promotional activities can be as important as "financing" in "developing the indigenous film-and-video industry".

C.V. (Caryl) Brandt, AMPDC V.P.

Successfully completed AMPDC projects are promoted to strengthen the Alberta industry's reputation and credibility—nationally and internationally.

Advertising and Promotion Activities

The AMPDC supports the Alberta industry through:

- Advertising tools—brochures, project catalogues and ads in trade publications—to raise the industry profile outside Alberta;
- Promotion at marketplaces, festivals and trade forums-to increase awareness of the Alberta industry and expand contacts; Some events where AMPDC promotes Alberta's industry: BANFF INTER-NATIONAL TV FESTIVAL: the world's only international television festival, first held in '79; ALBERTA FILM & TV AWARDS: sponsored by the Alberta Motion Picture Industries Association (AMPIA); Montreal WORLD FILM FESTIVAL & Toronto FESTIVAL OF FESTIVALS: held each fall; NATIONAL ASSOCIATION OF TELEVISION PROGRAM EXECUTIVES (NATPE) Conference: largest N.A. TV-program market, held annually in the U.S.A.; AMERICAN FILM MARKET (AFM): held in Los Angeles; MIP-TV Market and CANNES FILM FESTIVAL: held each spring in Cannes. France.
- Frequent **personal contact**—by the AMPDC President with funding agencies, television networks, coproducers and financiers—to reinforce the credibility of the Alberta industry.

Developing projects will continue to be a priority for AMPDC in the future, and with the addition of the Vice-President position, promotion and advertising will receive more attention in 1986-87.

12 COMPLETED PROJECTS INDUSTRY DEVELOPMENT Producer Development:

Through producing theatrical features and network television programs, Alberta producers refine their entrepreneurial skills and increase their trade contacts.

National/International Profile

On some of the completed projects Albertans co-produced with other Canadian and International companies:

- Four eastern Canadian production companies (Atlantis, Norflicks, Astral and Lauron) linked up with Albertans on five projects.
- Three of the twelve projects involved international co-production commitments with West Germany, Japan, Britain and France.

Writer/Director Development:

Half of the 12 completed projects had **Alberta writers** and one-third of the projects had **Alberta directors**.

Cast/Crew Employment:

Albertans were employed in **76% of the total number of "jobs"*** on the twelve completed projects—80% of the crews and 67% of the casts.

(*"Jobs" refers to "short-term contracts" on a specific project regardless of length of employment, however in his April '84 An Assessment of the Economic Impact of Film and Television Production, Distribution and Exhibition Activities in Manitoba, Paul Audley calculated that \$1 million in production expenditure generates 63 man-years of employment for industry workers.)

Location and Facilities Use:

The completed projects were mostly produced on location in Alberta—83%—with only 17% "in studio", and one-quarter of the productions on video.

A quarter of the film lab work was done in Alberta, 34% in Ontario and 8% in both British Columbia and Quebec.

Post-production was in Alberta (58%) and Ontario (42%).

Background - AMPDC Basics

The ALBERTA MOTION PICTURE DEVELOPMENT CORPORATION (AMPDC) is a private corporation funded by the Alberta Department of Economic Development in 1982 to stimulate the growth of an *indigenous film-and-video industry*.

From a \$3 million fund, the AMPDC loans''seed money'' to commercially viable projects that can develop the industry. Loans and loan guarantees are for up to 60% of the *development budget* to a maximum of \$200,000.

AMPDC Differences

The AMPDC differs from federal and other provincial film programs in several important ways:

- The AMPDC does not have equity funds.

As a loans-for-development
 ONLY fund, the AMPDC must be repaid on the first day of the pro-

duction of a project...with one important exception.

- In the case of the "production of a pilot" - as a part of the development of a project - AMPDC is not repaid until either first revenues from pilot-sale or at the start of the resulting series-production.

Main Criteria - AMPDC Project Loans

To be eligible for a loan, projects must meet a number of criteria. After important factors like QUALITY, the most basic are:

• Alberta Benefit: a producer must show that a project will contribute to the development of the indigenous Alberta motion picture industry;

• Commerical Viability: a producer must have a financing & marketing plan to recoup the cost of production (including the

development loan);

• **Producer Risk**: to borrow 60% of the development budget, a producer must provide the remaining 40% - through the production company, co-producers, investors, distributors, presales and/or other funding agencies;

• **Producer Experience**: a producer must have a minimum of 5 years on-screen credits as a producer (or acceptable equivalent producer-related experience).

Assessment Process - AMPDC Loan Applications

Loan requests are considered **quarterly** through a 3-stage process.

1) Applications for loans and loan guarantees are first screened and evaluated at the AMPDC Canmore office.

2) A six-member AMPDC Industry Advisory Committee

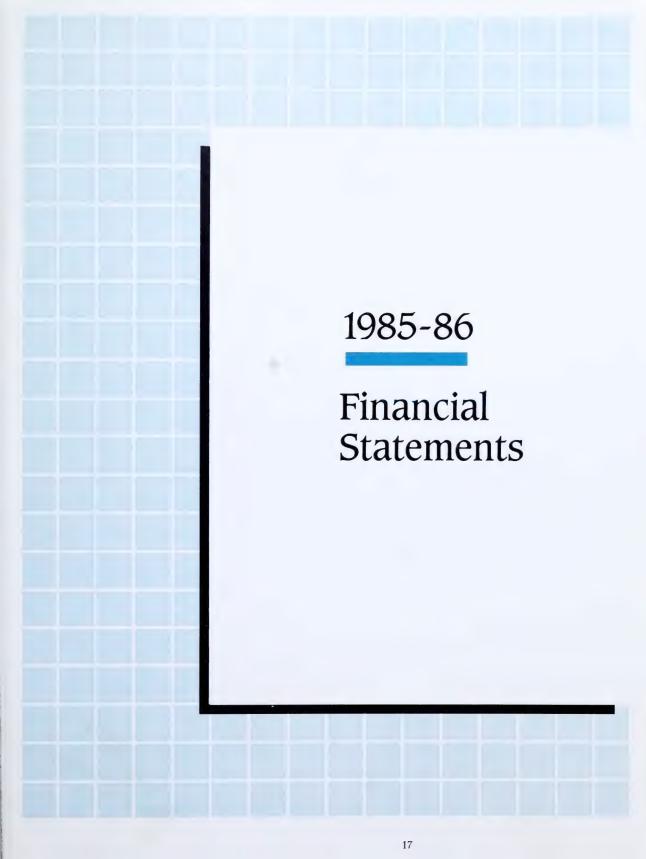

reviews applications, completing a 3-page assessment of each project, and makes recommendations to the Board about loans and policy.

3) The AMPDC Board of Directors makes the final decisions about loan applications as well as establishing policy within the AMPDC mandate.

Alberta Motion Picture

Development Corporation

ALBERTA LEGISLATURE

OFFICE OF THE AUDITOR GENERAL

Auditor's Report

To the Board of Directors of the Alberta Motion Picture Development Corporation

I have examined the balance sheet of the Alberta Motion Picture Development Corporation as at March 31, 1986 and the statement of operations for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Corporation as at March 31, 1986, and the results of its operations for the year then ended in accordance with the disclosed basis of accounting, considered appropriate in the circumstances, as described in Note 2 to the financial statements applied on a basis consistent with that of the preceding year.

Donald D. Salmon

Edmonton, Alberta May 29, 1986 Donald D. Salmon C.A. Auditor General

Notes to the Financial Statements

March 31, 1986

Note 1 Authority

The Alberta Motion Picture Development Corporation operates under the authority of the Motion Picture Development Act. Chapter M-19.1, Statutes of Alberta 1981, which expires on March 31, 1989.

Note 2 Significant Accounting Policies

a) Basis of Accounting

These financial statements have been prepared in accordance with generally accepted accounting principles except that no amortization or depreciation has been provided on leasehold improvements or furniture and equipment as these assets are charged to operations in the year of acquisition and are shown on the balance sheet at cost with the offsetting credit to equity in fixed assets.

b) Fund Accounting

The Alberta Motion Picture Development Corporation receives funding from different sources. It is the Corporation's policy to keep these funds segregated by purpose and to report the assets and liabilities of each fund separately on the balance sheet. The two funds are:

- i) an operating fund which receives operating grants from the Department of Economic Development and Trade of the Province of Alberta to pay the operating expenses of the Corporation.
- ii) a loan fund which receives advances from the Motion Picture Development Fund, interest earned on loans to producers and bank interest earned on unutilized advances. These amounts are used to make advances to motion picture producers.

c) Changes in Financial Position:

A statement of changes in financial position is not provided as disclosure in these financial statements is considered to be adequate.

Note 3 Loans to Motion Picture Producers

These loans are limited to 60% of the total funds required for the pre-production stage of motion pictures.

	1986	1985
Loans and interest due from producers at beginning of year before allowance for non-recovery	\$1,626,969	\$ 806,855
Add: Loans advanced in year Interest earned in year	872,461 219,819	693,040 136,962
	2,719,249	1,636,857
Deduct: Loans repaid by producers Interest received Loans and interest written off	88,375 23,316 39,945	1.461 1,442 0.985
	151,636	9,888
	2,567,613	1,626,969
Deduct: Allowance for non-recovery of loans and interest	1,461,076	679,002
Loans and interest due from producers at end of year	\$1,106,537	\$ 947.967

The allowance for non-recovery of loans and interest is determined:

- by management's ongoing assessment of the ability of the motion picture producers to obtain financing to cover the full
 cost of producing the motion pictures and to repay the loans, and
- by applying a formula which in management's opinion reflects the high financial risks faced by producers and financiers during the pre-production stage of making motion pictures.
